

Job Title: Investment Associate
Location: Jung-Gu, Seoul, Korea

About the Company

- Ignight Capital is a friends & family office which runs a legitimate private investment vehicle.
- Our founders have hands-on experience in investing and financing some of the valuable and well-known blockchains and protocols both in primary and secondary markets since 2017.
- We put major focus in embracing the development of distributed ledger networks by investing in highly promising digital assets.

About the Job

- We are looking for an investment associate who has a high passion for investing in DeFi, NFTs, the concept of DAO, and the limitless upside potentialized digital asset market as a whole.
- The candidate will be expected to add value to the firm by researching early stage investment deals and allocating assets at the corporate level based on profit maximization.
- The ideal candidate will be highly motivated, with passion for our company and team mission.
- We seek a problem-solving individual willing to learn and contribute to our energetic and fast-paced team. **Competitive salary and performance-based bonus will be paid off as a reward.**

Primary Responsibilities

- Build and refine a scoring Model and provide technical due diligence for the investment group.
- Keep track of the firm's investment pipeline as well as prospective projects and collaborate with external partners by providing innovative proposals to the futuristic investment target protocols.
- Discover and review new crypto projects in a quantitative manner by monitoring social channels on a daily basis.
- Provide initial investment review and screening of prospective investment opportunities.
- Actively assist the portfolio manager in asset allocation.

Skills & Qualifications

- 0+ years of experience working in a digital asset environment.
- Passion for Defi and crypto and previous experience with DApps and Yield farming.
- Good understanding of Ethereum and other smart contract enabled platforms.
- Experience with smart contracts technology.
- Knowledgeable in Excel and Data analysis.
- Fluency in English and Korean. Mandarin or Spanish is a plus.
