GOLDMAN SACHS 2023 Summer Analyst - Controllers Division

ABOUT GOLDMAN SACHS

Goldman Sachs is a global investment banking, securities and investment management firm. We provide a wide range of services to a substantial and diversified client base that includes corporations, institutional investors, governments, non-profit organizations and high net worth individuals. Our headquarters are in New York, and we maintain significant offices in London, Bangalore, Mumbai, Tokyo, Hong Kong and other financial centers around the world.

ABOUT OUR ROLES IN CONTROLLERS DIVISION

The mission of Controllers is to ensure that the firm meets the financial control and reporting obligations of a global, regulated and public financial institution. As part of the firm's 2nd line of defense, Controllers provides the critical analysis required while ensuring the internal and external financial information of the firm is accurate. Additionally, Controllers serves an important role in safeguarding the assets of the firm through the independent scrutiny of the financial information. Through its strong culture of control and challenge, Controllers helps to protect the firm from reputational and other risks while also engaging regularly with the firm's regulators and auditors.

JOB RESPONSIBILITIES

The primary mission of Controllers is to ensure that the firm meets the financial control and reporting obligations of a global, regulated and public financial institution. The Controllers team is responsible for the financial and regulatory reporting functions for the firm's various subsidiaries in the Asia Pacific region.

Primary responsibilities include:

- Financial Reporting—maintain the books and records under USGAAP for firm's consolidated reporting and IFRS for local statutory reporting.
- Regulatory Reporting— prepare semi-annual & annual audited financial statements, annual tax return and other statutory filings; prepare and file monthly regulatory reports; perform analysis of regulatory requirements for proposed new businesses/specific trades.
- Collaborate with Tax department to ensure compliance and proper risk management of tax obligations.
- Ensure that control standards are maintained and documented.
- Work closely with other areas within Controllers, both in Singapore and globally, as well as with other divisions.
- Participate in cross-divisional projects for new business initiatives.
- Coordinate with relevant departments and regional offices for local requirements.
- Develop a broad understanding of the securities business and financial products.

BASIC QUALIFICATIONS

- Graduating between August 2023 to July 2024 with a Bachelor's degree or above.
- No full-time work experience (excluding internship experience).
- Good PC skills (particularly with Excel).
- Strong communicator and fluency in English.
- Strong control mindset.
- Independent, self-motivated and the ability to problem-solve.
- Ability to work under pressure and willing to take on extra responsibilities.
- A team player who can work effectively with Business and other Federation teams.
- Strong analytical skills and detail oriented.

Our headquarters are in New York and we maintain significant offices in London, Bangalore, Mumbai, Tokyo, Hong Kong and other financial centers around the world.

ABOUT OUR GLOBAL COMPLIANCE DIVISION

Global Compliance division prevents, detects and mitigates compliance, regulatory and reputational risk across the firm and helps to strengthen the firm's culture of compliance. Compliance accomplishes these through the firm's enterprise-wide compliance risk management program. As an independent control function and part of the firm's second line of defense, Compliance assesses the firm's compliance, regulatory and reputational risk; monitors for compliance with new or amended laws, rules and regulations; designs and implements controls, policies, procedures and training; conducts independent testing; investigates, surveils and monitors for compliance risks and breaches; and leads the firm's responses to regulatory examinations, audits and inquiries. You'll be part of a team with members from a wide range of academic and professional backgrounds, such as law, accounting, sales, and trading. We look for those who possess sound judgment, curiosity, and are able to adapt to a changing regulatory landscape.

BASIC QUALIFICATIONS

- Graduating from August 2023 to July 2024 with a Bachelor or Master Degree
- No full time work experience (excluding internship experience)
- Interest and passionate in working in financial industry
- Strong analytical, investigative and risk assessment skills
- Impeccable attention to detail and excellent problem solving and analytical skills
- Ability to work in a dynamic global environment with a focus on teamwork
- Ability to grasp complex issues, interpret information and communicate commercial and operational issues
- Flexibility to adapt to a dynamic and changing organization
- Excellent verbal and written communication skills in English
- A proactive approach and a high level of enthusiasm

2023 ENGINEERING SUMMER INTERN PROGRAM

ABOUT GOLDMAN SACHS

The Goldman Sachs Group, Inc. is a leading global investment banking, securities and investment management firm that provides a wide range of financial services to a substantial and diversified client base that includes corporations, financial institutions, governments and individuals. Founded in 1869, the firm is headquartered in New York and maintains offices in all major financial centers around the world.

ABOUT ENGINEERING

Our Engineers don't just make things – we make things possible. Change the world by connecting people and capital with ideas. Solve the most challenging and pressing engineering problems for our clients. Join our engineering teams that build massively scalable software and systems, architect low latency infrastructure solutions, proactively guard against cyber threats, and leverage machine learning alongside financial engineering to continuously turn data into action. Create new businesses, transform finance, and explore a world of opportunity at the speed of markets.

Want to push the limit of digital possibilities? Start here.

LOCATION

Singapore, Hong Kong, Shanghai, Beijing

ROLES

Quantitative Strategists

Our quantitative strategists are at the cutting edge of our business, solving real-world problems through a variety of analytical methods. Working in close collaboration with bankers, traders and portfolio managers across the firm, their invaluable quantitative perspectives on complex financial and technical challenges power our business decisions.

As a member of our team, you will use your advanced training in mathematics, programming and logical thinking to construct quantitative models that drive our success in global financial markets. Your talents for research, analysis and aptitude for innovation will define your contributions and enable you to find solutions to a broad range of problems, in a dynamic, fast-paced environment.

Whatever your background, you will bring a fresh perspective and unique skillset to our business. In return, you will be trained by our experts across the firm to navigate the complexities of the financial markets and state-of-the-art methods in quantitative finance.

An ordinary day is anything but. You may work on alpha generating strategies; discuss portfolio allocation problems; and build models for prediction, pricing, trading automation, data analysis and more. Whichever your area of contribution, your ideas will have measurable effect on our business and for our clients.

Software Engineering

Become a software engineer at Goldman Sachs and bring your skills to help us build the next generation of finance systems that change how our clients and internal teams conduct business.

Combine the best open source software, databases, cloud solutions, and programming languages, to solve problems and provide accurate, complex, scalable applications that help our business and clients gain new insights. As a software engineer, you are the change agents that transform Goldman Sachs by applying your technical know-how.

Be a part of our embedded engineering teams, that work as a unit with our business partners. Collaborate with trading, sales, asset management, banking, finance and others, to build and automate solutions to keep our firm's position on the cutting edge. Or, join our core engineering teams, and elevate all of our businesses by providing reliable, scalable platforms for data engineering, machine learning, networking, developer tooling, collaboration and more.

Innovate with UI/UX designers, full-stack engineers, data scientists, cloud engineers, and more in a collaborative, agile environment where your enthusiasm to take on new problems and learn will have an immediate impact.

BASIC QUALIFICATIONS

Goldman Sachs recruits students and graduates who have a record of outstanding achievement in academic and extracurricular activities. A background in finance is not necessary. What we do require are integrity, professional excellence and teamwork.

In addition, we look for people who:

- Display a passion for technology
- Have computer science, math, statistics, and/or engineering backgrounds
- Have strong analytical and organizational skills
- Display excellent interpersonal and communication skills
- Are highly motivated and adaptable
- Are accurate and detail-oriented
