

Do you want to join a global leader in renewable energy infrastructure investments? If so, Copenhagen Infrastructure Partners (CIP) is the perfect place for you! We are currently looking for Student Analysts to join CIP in Seoul.

About the team and the position

You will join a highly motivated international group of best-in-class colleagues with exceptional experience in investments in energy and infrastructure assets. The Flagship Fund Investment Team has a direct impact on the long-term success of CIP and works closely with other local and global teams within CIP including the Investment teams, Financial Analysis, and Finance.

As a Student Analyst, you will contribute to developing, structuring, and executing CIP's investments in APAC and across various assets, including offshore wind, onshore wind, and solar PV. You will work closely with a highly experienced investment team in a high-pace dynamic environment on M&A deals and financings. CIP will constantly seek to challenge and inspire you while focusing on your learning and personal development. Top-performing Student Analysts may receive an offer to join us as full-time Associates upon graduation.

Your responsibilities

Key work areas include:

- Financial modelling, valuation and structuring of investments
- Market analysis and due diligence of new investment opportunities
- Visualization and presentation of technical and financial data to stakeholders
- Working together with industrial partners and advisors
- The workload will vary depending on the number of projects you are working on, with flexibility expected from both sides. You will be given the opportunity to influence your daily routine and schedule

The position is part-time and based in CIP's Seoul office.

Your qualifications

CIP is looking for penultimate, final year bachelor and 1st year master students majoring in Economics, Finance, Business Administration, or any other relevant field. We look for the following in a candidate:

- Top academic performance and strong analytical skills
- Strong work ethic with a 'can-do' attitude
- Team player with excellent written and spoken English skills
- Thriving with responsibility and displaying attention to detail
- Interest in project/corporate finance and M&A
- Curious and creative mindset with an ability to work independently
- Experience in Excel and PowerPoint
- Prior internship experience in top-tier investment banking, consulting, or project/corporate finance related field will be preferred, but not required
- Short cover letter, resume and transcripts should be sent to soo@cip.dk
- For any inquiries about the position, please contact Soochul Oh by email soo@cip.dk
- Visit <https://cippartners.dk/> for more information

Building Value That Matters

Copenhagen Infrastructure Partners (CIP) is a fund management company founded in 2012, which currently has ten funds and around EUR 18 billion under management including the largest dedicated greenfield renewable energy fund globally.

CIP's current investments include a wide range of energy infrastructure assets, including offshore wind, onshore wind, solar PV, biomass, green hydrogen and energy from waste, transmission, distribution, and other energy assets like reserve capacity and storage.

A career at CIP means you will have the opportunity to develop and utilize new skills, explore interesting fields and do challenging work that will impact the lives of people around the world. At CIP, we are empowering people to innovate and invest for a better and greener future.

CIP is a global business with employees in Europe, North America, and Asia-Pacific. A role in the team will expose you to a dynamic working environment and the opportunity to contribute to high-profile transactions whilst working in a business with the best people in the industry.

CIP's commitment to diversity and inclusion

CIP is committed to creating a diverse environment and is proud to be an equal opportunity employer. All qualified applicants will receive consideration for employment without regard to race, colour, religion, gender, gender identity or expression, sexual orientation, national origin, genetics, disability, age, or veteran status.

CIP strives for the best results. A diverse workforce allows CIP to achieve these results through different approaches and solutions to task execution and problem-solving.
