## Corporate Profile

Helicap is one of Asia's fastest-growing FinTech firms specializing in the private investments and alternative lending space in Asia Pacific. Powered by our proprietary credit analytics engine, we analyse and evaluate millions of data points from non-bank financial institutions and high-growth startups to extract meaningful investment insights and address a \$500 billion market opportunity. We provide curated private debt and private equity investments with attractive risk-adjusted returns to a wide network of investors, including Family Offices, HNWIs, Impact Funds, and Institutional Investors. Through these investments, we aim to fill a financing gap and enable financial access for over 300 million underbanked companies and people in the region.

Helicap is based out of Singapore with subsidiaries licensed or registered with the Monetary Authority of Singapore (MAS):

- Helicap Investments; RFMC registered with MAS
- Helicap Securities; CMS License for Dealing in Securities by MAS.

Our investors include Credit Saison, East Ventures, Access Ventures, Soilbuild Group, as well as senior executives from Temasek, GIC, Morgan Stanley, and Blackrock.
