Investment Team Intern Recruitment

Equis is looking for a highly competent and enthusiastic candidate to join the Investment Team as an Intern. During the internship, you will assist investment professionals in domestic renewable energy and waste infra deals.

[Company Overview]

Our corporate entity is actively pursuing infrastructure development and investment opportunities across the Asia-Pacific region. Equis is focused on the development of renewables, waste processing and recycling infrastructure assets across developed markets in the Asia-Pacific region. Equis has recently raised US\$ 1.25 billion capital from ADIA and OTPP.

Prior to the transition, Equis raised over US\$2.7 billion in private equity capital in a series of funds including Equis Asia Fund I, Equis Asia Fund II, and Japan Solar.

[Period]

3 Months (additional term may be discussed)

[Scope of Training]

- Drafting exercise in relation to investment memorandum and investment papers for renewable energy and waste infrastructure projects
- Market research exercise in relation to weekly market monitoring data and news-run on domestic renewable energy and waste sector
- Legal research exercise in relation to relevant legislations(including any amendment), policies, regulations and other market dynamics relevant to Equis' business
- Practical experience in relation to day-to-day business operations and asset management as well as administration duties

[Qualifications]

- Highly proficient in Microsoft Excel, Word and PowerPoint
- Fluent in both Korean and English
- Excellent analytic and quantitative skills
- Prior internship experience in finance highly preferred but not required

[Application]

Please send an English resume in .pdf form to the following email address. Applications will be received and reviewed on a rolling basis and selected applicants will be scheduled with interviews.
