

Job Description - Analyst

About CBC:

CBC Group, Asia's largest healthcare-dedicated investment firm, is committed to creating value and integrating global resources. Founded in 2014, CBC has a leading team of investment, industry and portfolio management professionals headquartered in Singapore with offices in Shanghai, Beijing, Hong Kong, New York and Seoul, and presences in Boston, San Diego, San Francisco, London and Tokyo. CBC focuses on platform-building, buyout, credit and growth-focused opportunities across multiple core areas within the healthcare sector, including pharmaceutical and biotech, medical technology and healthcare services.

Overview:

An Analyst with CBC Group is designed to provide insight into the day-to-day role of healthcare-focused investment professionals. We are seeking candidates who demonstrate excellent analytical skills as well as those who excel at financial modeling, critical thinking, data gathering and industry research. The role is to work with investment teams, focusing on fielding market research and undertaking a wide array of industry analyses and competitive assessments, modeling build-up, presentation materials preparation as well as multiple ad-hoc requests for transaction-related purposes. Our unique structure provides Analyst with exposure to the full life cycle of a deal, covering investment process, due diligence and closing and ultimately encouraging ownership and a sense of responsibility from day one.

Qualifications:

Candidates are expected to meet the following requirements:

- Expected one to two years' experience in consulting firms, Investment Banking, private equity fund, or investment consultant would be preferred.
- Exposure to the private equity industry across a variety of asset classes (including buyout, credit, venture capital, growth equity investment strategies).
- Demonstrated commercial and sales-oriented writing evidenced in private placement memoranda and pitch books, along with excellent analytical, communication, and interpersonal skills.
- A proactive and entrepreneurial work ethic, with the ability to take initiative and work well under pressure.
- Willingness to learn and professional attitude and interests in healthcare industry.
- Preferred to have an advanced degree in finance, management or life sciences related disciplines from a top-tier institution.
