

Mitra Chem is a growth-stage startup developing sustainable Li-ion battery cathodes in the heart of Silicon Valley. Our high-throughput acceleration platform shortens the lab-to-production timeline by >90% through vertically integrated process optimization and cutting-edge artificial intelligence applications. Our iron-rich cathodes are industry proven drivers of EV, ESS, and consumer electronics applications, and our team of industry leaders is developing a robust supply chain and manufacturing pipeline to deliver Inflation Reduction Act (IRA) qualified cathodes to our customers.

We have set up a state-of-the-art 15,000 sq ft industrial R&D center in Mountain View, CA. Join our team and be a part of the growing battery revolution.

We are looking for a **Finance Analyst / Associate, Cost Engineering** to join **immediately in-person in Seoul, Korea**.

Responsibilities:

- Serve as the analytical backbone of the company's strategic finance team, providing insights for future growth and strategy
- Report directly to the Senior Cost Engineer as part of Mitra Chem's lean full-time finance team that is cross-functional across Korea and the USA
- Provide cross-functional support with exposure to all aspects of the business
- Prepare detailed cost estimates for various projects
- Analyze project requirements and specifications
- Develop and maintain cost databases and pricing models
- Conduct cost-benefit analysis to support project decision-making
- Monitor and report on project budget performance
- Review financial reports and identify cost-saving opportunities
- Collaborate with procurement to manage supplier contracts and pricing
- Evaluate cost risks and develop mitigation strategies
- Prepare and submit cost control reports
- Ensure compliance with industry standards and regulations
- Performing monthly budgeting and re-forecasting for manufacturing projects
- Build and manage operational and projection models for various manufacturing projects and integrate with company operating model
- Support with fundraising efforts through diligence support and modelling efforts
- Assisting in supplier and customer contract negotiations
- This role will have a fast growth path for the right individual who would like to support the cost engineering side of finance with a desire to grow into the strategic side quickly

Qualifications:

- 2+ years of professional finance experience with a preference for investment banking, private credit, or private equity or **working as part of a cost engineering team at a large conglomerate**
- Bachelor's degree in related field or relevant work experience
- Comprehensive understanding of financial principles, including budgeting, forecasting, and financial modeling (key requirement)

- Ability to deconstruct often time ambiguous and complex problems, and drive to a data-driven and process driven solution
- Ability to manage multiple projects simultaneously in a fast-paced setting while keeping a high bar of accuracy and attention to detail
- Excellent communication skills, both written and verbal
- **Preference for Korean and English speaker**
- Relentless sense of ownership, curiosity, and initiative and a self-starter mindset

Benefits:

- Competitive compensation package including company equity
- Comprehensive benefits including health, vision and dental insurance, Tax-free spending accounts, along with life and disability insurances
- Flexible time off with company holidays
- Free daily lunch and snacks
